WORK EXPERIENCE

Data scientist intern
Devtown

12/2022 - 04/2023

Devtown is an ed-tech startup that provides training and provides internships to only those candidates who are amongst 10% of the total batch size

Achievements/Tasks
- I got a letter of recommendation after working as a intern at devtown

Contact : Ashish Modi(co-founder) - ashishmodi@devtown.in(+91 99837 42739)

SKILLS

Data visualization   data cleaning   python   Data structures   machine learning   web development   java   HTML   CSS

PERSONAL PROJECTS

cat and dog classifier (04/2023 - 04/2023)
- The project identifies whether the character in a photo is a cat or a dog. I can easily perform that operation on human photos as well

Zomato landing page (07/2023 - 07/2023)
- During this project, I used HTML and CSS in order to develop a Zomato landing page

Youtube sentiment analyzer (02/2023 - 02/2023)
- This project helps to analyze the quality of video through sentiment analysis of the videos

Mall customer segementation (02/2023 - 02/2023)
- I made this project we will be segregating different costumers based on the datasets
